AMAN SINGH

Software Developer | 2.5+ Years | Mobile & Web Applications

Bangalore, India • +91 9900604665 • amansinghofficial9776@gmail.com • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Results-driven Software Developer with **2.5+ years** of experience building scalable mobile and web applications in fintech and e-commerce. Specialized in **Flutter, Next.js, React, and FastAPI** with a track record of shipping production apps serving millions of users. Experienced in end-to-end product development from KYC/payment integrations to AI-powered SaaS platforms. Strong collaborator who thrives in agile environments with a focus on clean architecture and measurable impact.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Dart, Python, Java, SQL
Frameworks: Flutter, Next.js, React, FastAPI, Node.js, Express.js
Databases: PostgreSQL, MongoDB, Firebase (Firestore/RTDB), Redis, MySQL
Tools & DevOps: Git, GitHub, JIRA, Postman, Celery, Docker, VS Code, Firebase Analytics
APIs & Services: REST APIs, OpenAI API, Stripe, UPI/e-NACH, Salesforce API, HyperVerge SDK, CleverTap
Architecture: BLoC Pattern, Clean Architecture, MVC, Server-Side Rendering (SSR), Static Site Generation (SSG)

WORK EXPERIENCE

Software Developer — L&T Finance

July 2023 – Present | Bangalore, India

- Develop and maintain key modules of **Planet App**, L&T Finance's flagship digital lending platform serving **millions of users**, including Farm Loan Top-Up and Personal Loan journeys
- Led end-to-end development of the **Farm Loan Top-Up flow** — KYC verification (HyperVerge SDK), loan customization, bank verification, eligibility checks, and BRE validations
- Built **D2C Planet TA Portal**, an enterprise Flutter app for Trade Advance and Two-Wheeler dealer financing with **Smart Nudge System** (5 lifecycle alerts), TW Performance Dashboard, and multi-layered security (biometric auth + AES encryption + root/emulator detection)
- Integrated **UPI Mandate & e-NACH** payment flows for automated loan repayment collection across multiple loan products
- Resolved **600+ JIRA tickets** in production; provided live support analyzing logs and user feedback to minimize downtime and improve app stability
- Implemented **3-environment flavor configuration** (dev/staging/prod) with dynamic API endpoints, Firebase Analytics, CleverTap engagement tracking, and DevRev issue management

PROJECTS

AutoZenlyAI — Multi-Platform AI Social Media Automation SaaS

Next.js 14, FastAPI, PostgreSQL, Redis, Celery | autozenlyai.com

- Built a SaaS platform integrating **6 AI providers** (Claude, GPT-4, Gemini, Mistral, Cohere, Groq) for automated content generation and multi-platform social media posting
- Developed visual **drag-and-drop calendar scheduler**, RSS-to-post pipeline, and real-time analytics dashboard with engagement metrics
- Implemented background task processing with **Celery + Redis** for scheduled posts and Dodo Payments subscription monetization

Mobile Armour — AI-Powered E-Commerce Platform

Next.js, React, MongoDB, OpenAI API, Stripe | mobilearmour.com.au

- Developed a full-stack e-commerce marketplace with **AI-powered chatbot** (OpenAI) and personalized recommendation engine, achieving **20% increase in user engagement**
- Optimized with SSR/SSG for **20% faster load times**; integrated Stripe payment gateway with webhook handling and admin dashboard for inventory management

HS Race Gear — Custom Racing Gear E-Commerce Platform

Next.js 15, React 19, MongoDB, NextAuth.js | hsracegear.com

- Built a custom e-commerce platform featuring **3D product viewer** (Google Model Viewer), custom measurement forms, wishlist, and a full-featured admin dashboard
- Implemented dynamic **SEO suite** with Open Graph meta tags, structured data, and automated XML sitemap for improved search visibility

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

Graduated 2023
